VA National Cemeteries -- Historic Places and Landmarks

VA operates 86 memorial properties, including four monuments, that are listed by the National Park Service on the National Register of Historic Places and 9 properties listed as National Historic Landmarks. The largest addition of VA's cemetery and memorial properties on those lists was made during the 1990s in the category of "Civil War-Era National Cemeteries" when 55 of VA's national cemeteries were accepted on the National Register of Historic Places.

The National Register is the official list of the nation's properties worthy of preservation. Nearly 79,000 properties listed in the Register include districts, sites, buildings, structures and objects that are significant in American history, architecture, archeology, engineering and culture. The properties are significant to the nation, to a state or to a community.

National Historic Landmarks are properties determined by the Secretary of the Interior to be nationally significant in American history and culture. Fewer than 2,500 historic places, each representing or illustrating an important theme in national history, bear that distinction.
